ORGANISATION SHEET

Context and Objectives

C-level executives, their direct reports and board members must move beyond “business as usual” to lead with greater transparency, accountability and efficiency.

We are, more than ever, in a period of transformational change. Many bankers have so many open issues that sleepless nights are part of their normal life. It is therefore crucial for all bank leaders to be properly equipped for this endeavour in uncharted waters. Our Executive Programme should help you to shape the future of your bank.

By targeting critical challenges confronting today’s top and senior management and having governance as the central point, this programme has the following objectives:

- Re-assess the future of banking in the context of a fast changing environment;
- Provide a comprehensive review and share experiences on developing the strategic understanding of good governance;
- Explore forward looking leadership to sustain business success;
- Enhance your ability to assess potential risks faced by your institution;
- Discuss new trends in branch network management, in e-banking and new distribution channels;
- Gain exposure to the latest ideas in Strategy & Organisation;
- Understand the impact of new technologies, Fintech, to the established financial market;
- Increase awareness of the risks of cyber attacks and get acquainted with Cybersecurity management and its opportunities;
- Discuss the international best practices in compliance, internal/external audit and control;
- Build a valuable network with international banks and institutions.

Guided by knowledgeable experts you will exchange experiences and ideas, discuss and challenge established routines. You will also be able to seize the interactions between different areas such as risk, compliance, governance and internal/external audit.
