Your opportunity to become "ACAMS® Certified Anti-Money Laundering Specialist" and gain a deep view on AML in Europe and in the world: Join us for an enlightening seminar in Luxembourg!

Dear Madam, Dear Sir,

"Money laundering is the process of making illegally-gained proceeds (i.e. "dirty money") appear legal (i.e. "clean"). Typically, it involves three steps: placement, layering and integration. First, the illegitimate funds are furtively introduced into the legitimate financial system. Then, the money is moved around to create confusion, sometimes by wiring or transferring through numerous accounts. Finally, it is integrated into the financial system through additional transactions until the "dirty money" appears "clean." Money laundering can facilitate crimes such as drug trafficking and terrorism, and can adversely impact the global economy." (United States Department of the Treasury - FinCen, 2016)

As a professional in Anti-money laundering or Compliance it is your mission to safeguard your bank from the abuses of financial crime, including terrorist financing, money laundering and other illicit activity.
