

On-going projects financed by German Development Bank - KfW
September 2020

Project Name	Short description	Amount EUR Mil.	FY of the agreement
Water and Environment			
Water and Sewerage Programme Macedonia, Phase I	The project is aimed at ensuring sustainable supply of drinking water for the population in 8 municipalities: Bitola, Gevgelija, Gostivar, Kavadarci, Kocani, Negotino, Radovis and Tetovo. Beneficiaries: Municipalities	8.64	2009
Irrigation Programme Southern Vardar Valley II	Realisation of this Project will provide for implementation of rehabilitation measures, modernization and enlargement of systems for irrigation in Valandovo. Beneficiary: Ministry of Agriculture, Forestry and Water Economy	10.25	2011
Water and Sewerage Programme Macedonia, Phase II (grant)	The project is aimed at ensuring funds for financing water infrastructure investments in municipalities Gevgelija and Kavadarci. Beneficiaries: Municipalities	5	2017
Irrigation Programme North Macedonia	This Program includes rehabilitation and expansion of 4 irrigation systems along the valley of Vardar river (Straishte, Lisice, Konjsko and Pepelishte), as well as construction of small hydro power plants on HS Lisice. Beneficiary: Ministry of Agriculture, Forestry and Water Economy	80	2019
Energy			
District Heating Bitola	The project is aimed at replacing the usage of electricity, oil and wood for heating, which will cut greenhouse gas emissions and improve the safety and reliability of the distribution network. Beneficiary: AD ELEM	39	2015
Wind farm Bogdanci – Phase II	Within the second phase of this project, the installation of 6 turbines in the Bogdanci wind farm with installed capacity of 13.8 MW is predicted. In this way, the wind will be used as a renewable energy source through the construction of wind power plants, in order to achieve additional annual production of 37 GWh sustainable energy. Beneficiary: AD ELEM	18	2018
Energy efficient rehabilitation of student dormitories in North Macedonia	In addition to energy efficiency measures for student dormitories, the project includes measures for their complete reconstruction, in order to improve the living conditions of students. Beneficiary: MoES	20	2019
