Multinational seminar in Luxembourg
Digitalisation in Banking
Driving the Digital Transformation of your Bank
Luxembourg, 13-17 November 2023

Dear Madam,
Dear Sir,

Are you responsible for the digital transformation of your bank, must oversee it or guide your team in this adventure? Do you wish to be inspired by masters in this area and reference institutions in the Digital Transformation domain?

Then we invite you to join us in Luxembourg for an enlightening exploration of the digital transformation landscape, to embark on a transformative journey and be exposed to a solid introduction to digital transformation frameworks.

This can be done thanks to the Luxembourg government who has agreed to support the newly created 5-day seminar **[Digitalisation in Banking - Driving the Digital Transformation of your Bank](#)** which will take place in **Luxembourg from 13 to 17 November 2023**.

This programme has been developed by the House of Training's digital experts, in collaboration with reference institutions in Luxembourg Digital sphere, such as the [Luxembourg House of Financial Technology \(LHoFT\)](#), the [National Commission for data protection](#), [LuxHub \(Innovative Fintech solutions in Open Banking\)](#).

This innovative programme will approach digital transformation from several different perspectives which are detailed in the description of the programme on the [ATTF's website](#).

Up to 16 candidates will be selected among applicants from the [ATTF partner countries](#).

Interested? We invite you to have a careful look at the attached documents and at the links in this and in the attached documents to acknowledge the details of the programme and of the financial conditions.

Should you consider that this course can help you lead the digital transformation of your institution, we invite you to fill in the attached **application form** and send it back to the [ATTF official partner in your country](#) **before 7 September 2023**. Please note that **only fully completed forms** will be considered.

The application form for this programme contains questions related to the content of the programme and to the way participating in the programme will influence the applicant's daily work and future actions in the domain of digitalisation. These questions are of extreme importance for the selection committee; for this reason, we recommend that candidates take the needed time to answer them.

Looking forward to receiving applications from your country.

HOUSE OF
TRAINING

In the meantime, should you need any further information on the programme, please feel free to contact Luciele Milani at Luciele.MILANI@houseoftraining.lu, Training Advisor responsible for this programme.

Yours sincerely,

Luciele Milani
Training Advisor

Ben Lyon
Head of ATTF
