**Expert**

**Sylvain Momin** is a distinguished leader in IT and digital transformation with more than 27 years of experience across the financial and public sectors. Currently serving as Director of IT at SIGI, he spearheads initiatives that leverage AI to enhance municipal services throughout Luxembourg. His expertise lies in guiding organisations through complex digital transformations, particularly in regulated environments such as banking.

In recent years, Sylvain has focused on AI's transformative role, designing and delivering training programmes on AI applications, digital transformation, and cybersecurity for professionals in various industries, including banking. His courses provide actionable insights into how AI can support strategic decision-making, improve customer experiences, and strengthen operational efficiencies—key areas of interest for today's banking leaders.

Previously, as CIO at Crédit Agricole Indosuez Luxembourg and ABN AMRO Bank, Sylvain lead significant IT overhauls to ensure that technology aligned with business strategy and compliance. Through his work and teaching, he empowers professionals to navigate the opportunities and challenges of digital innovation with a human-centred approach.
